# Company Profile

## Making a difference in PPE, Safety, Clothing . . . .

At Tower Supplies we understand the needs of the market - after all, we have been established for over 25 years and have a family management team with over 80 years combined expertise in the P.P.E. market. From small beginnings as a regional supplier, we have progressed to Europe-wide supply, controlling our own manufactured goods and providing a breadth of support services that is unparalleled.

Utilising links with a group of over 40 independent distributors, Tower Supplies can demonstrate the ability to deliver premium quality products with a full service package, time and time again.

The three operating divisions are:-

1. **Tower Supplies** - supplier and wholesaler of P.P.E., clothing and janitorial products.
2. **Indigo Corporate Clothing** - a specialist supplier to the wholesale clothing market, producing it's own range of garments under the "WorkBear" and "BearGear" brands.
3. **Breathe Safety Services** - specialist training and support services to users of R.P.E., and P.P.E.with on-site and off-site facilities.

### We're Personal

We believe in building relations - that's person to person as well as company to company so that we can understand our customers requirements.

### We're Ethical

We're dedicated and committed to ensuring that we only supply products from manufacturers who care for the environment and their employees, requiring regular audits on existing and new suppliers to constantly improve working conditions.

### We're Quality

We understand that you insist on quality service and products - and we have to prove it. We continually check standards, monitor performance and utilise both our in-house facilities and independent test houses to ensure you receive quality - yesterday, today and tomorrow.

### We're Trainers

No longer is it acceptable to supply products only - you have a right to expect more and more is what we can deliver. Training (in use of equipment and in certified courses to meet legislation) and testing in our fully fitted workshop facility to ensure ongoing compliance with legislative requirements are an integral part of our service.

### We're Local and National

With our associate companies in so many locations, you can collect goods within a more localised area - or have it delivered to your door the next day - or even the same day if you have an emergency.

### We're Stockists

With economic pressures and number-men watching inventory, suppliers are continually reducing stock. We continue to fill our 40,000 sq ft distribution facility with over 16,000 stock products for immediate delivery - to you.

### We're Experts

We like to think our knowledge is second to none - so that we can share that breadth of knowledge with customers and assist you in selecting equipment that is wearable and cost effective - and to keep our customers informed of changes in legislation and up-to-date.

### We're Easy . . . . to deal with

Our trained team of sales advisors provide on-site services with office back-up, with our own fleet of delivery vehicles, we're in control. And you can place your orders by phone, fax or electronically - and enjoy account facilities (subject to status) if required.

# Product List

## FIRST AID

Complete kits  
Refills  
Dressings  
Plasters  
Bandages  
Strappings  
Tapes  
Antiseptic Wipes  
Syringes  
Needles  
Analgesics

- Fire Buckets
- Fire Blankets
- Fire Signs
- Fire Extinguishers
- All Purpose Ladders
- Extension Ladders
- Step Ladders
- Scraper Mats
- Safety Knives

# are you in control... ...of your stock? ...of your cost?

We have specialised in providing on-site storage facilities - at our cost - with the products of your choice inside - so that you can have what you want when you want. By prior agreement, your managed stock is replenished to agreed levels so that you never run out of stock - and you only pay for what you use. Should

you change a product in use, you simply arrange for the stock to be cleansed. Or should you have a seasonal surge in requirements, the stock can be adjusted for that period, without costing you a penny. So, whether you need a small two door cabinet or a 40' shipping container, we can supply it and fill it with stock.

A relocatable site store, with high security features

The interior of a location safety store - racked and ready to go, with lights and shelving

A typical two door cabinet, with contents
